

Alpha-ESS

Alpha-ESS is a provider to an energy service global market. Alpha-ESS have set their footprint and are actively involved in the energy revolution in over 20 different countries and regions. Alpha is increasingly gaining recognition as one of the top energy storage brands in the world, **placing in the top 10 at the ESS Awards Ceremony at Intersolar Europe 2015** in Munich - the only company from China to do so.

Alpha-ESS is specialised in providing advanced energy storage products and intelligent solutions for residential and commercial premises. With years of experience in both the clean energy and battery industries, the Alpha-ESS team helps families and businesses reduce their electricity costs and achieve energy independence through their own power generation, storage, and optimisation.

Alpha-ESS provides customised energy storage solutions for on-grid, off-grid and micro-grid applications at both residential and industrial & commercial levels, which helps customers to achieve energy independence and environmental responsibilities.

Beyond attractive pricing and the long-term reliability Alpha is known for, the it's new model, SMILE-5 unit which has lots of great features, including built-in UPS blackout protection, a 5 kW flow rate so you can run multiple appliances from the batteries, and online visual monitoring to help track your system's performance.

The new model SMILE-5 is built tough enough for outdoor installations with IP65 rating, is attractive, compact, clean and quiet
