**SOLTARO**

POWERING THE FUTURE WITH SOLAR

INVERTER COMPONENTS

QUALITY INSPECTION

After wholesaling in Australia, Europe and Asia for over 9 years we have seen how easy it is for retailers to source products and get the same pricing as those that have supported and market products from the beginning. Soltaro distributors and retailers are carefully selected to ensure they conform with the Soltaro brand and apply best practices for installation and sales.

**We want to protect our customers and yours** - The majority of Warranties for solar in Australia are supported by overseas companies. Using our experience of manufacturing and 3rd party cover we are able to bring product to the market that have better warranty backing and faster claims processing by keeping warranties in Australia.

**Soltaro offers an end to end solution** - through our distribution partners we offer you and your customers a unique and exclusive experience and a crucial point of difference for today's market.

## SOLTARO IS A 100% AUSTRALIAN OWNED AND OPERATED COMPANY

with our staff having a combined 30 years experience in the renewable industry.

**Having imported and marketed every major brand of panel and inverter available today** we have seen an opportunity where we can work with manufactures to produce better products in a manner that fits our clients needs and the market demands.

In 2017 Soltaro opened it's own battery manufacturing and assembly facility in Wuxi, China. This has enabled us to control the full production of our energy storage systems.

**We can now offer our customers a selection of unique product lines to the highest quality and exclusivity.**

SOLTARO BATTERY FACTORY

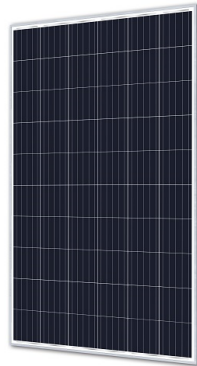

## SOLTARO INVERTERS

Soltaro inverters are manufactured for us using our unique quality foundation. Longer testing, increased durability and ease of use are all incorporated into the final product. Inverters being the work horse of the system are produced to the highest grade and strict quality control.

## SOLTARO SOLAR PANELS

Every panel Soltaro manufactures is built to the highest standard. We have modified the production methods to increase the panels life and operation around Australia's harsh environment.

## SOLTARO BATTERIES

Soltaro batteries are manufactured from our very own plant in China. As we manufacture the product we can ensure the end to end quality and grade of materials used in each battery. We have developed multiple battery types for a variety of applications and for different countries using our batteries.

## PRODUCTS

Our product is our pride. We work closely with our own factory and manufacturers to ensure the highest grade of materials and best manufacturing processes are adopted.

## WHY CHOOSE SOLTARO PRODUCTS?

- Exclusive marketing and channels
- End to End product and support
- Australian Owned & Operated Company
- Hand selected & Improved product
- All Soltaro Products have to pass an Independent Quality Control Inspection and Soltaro guidelines before coming to Australia.
- Australian based warranty centre
- Most warranty claims responded to and processed the same day
- Soltaro Support Portal - Protecting the end user
  - Providing high level support to installers in the field
  - Customers can submit their own warranty claims and concerns
  - Offers resellers as much or as little involvement in warranties
- We know our product inside and out
  - We designed and innovated our product and know everything there is to know about them providing a highest level of technical support in the field.
