

SOLA X POWER

The **SolaX** vision is to be a world leader in the development, production and distribution of solar inverters. The product range incorporates the very latest in solar innovation thanks to the continued focus on R&D and unceasing commitment to pushing back the boundaries of what is possible – a journey that has led to the launch of the ground-breaking X-Hybrid solar energy storage system.

SolaX is more than just an inverter, the innovative X-Hybrid is an intelligent energy storage management system that stores surplus energy in batteries for later use. The X-Hybrid is the leading energy storage inverter on the market today, the X-Hybrid is compatible with most battery storage solutions.

X1 BOOST SolaX have developed a range of single phase inverters unrivalled in the industry for their quality, reliability and efficiency. The **SolaX** single phase inverters boast a wide MPPT voltage range to allow for more energy harvesting and have a maximum input voltage of 580V, with a maximum efficiency of 97.6%. In addition, **SolaX** single phase inverters are IP65 rated, have no internal fan and come with optional 'plug & play' WIFI. The dual MPPT 'Boost' range is also compatible with the new **SolaX** 'Smart Plug' which allows for device remote control. **SolaX**

have developed a range of three phase inverters unrivalled in the industry for their quality, reliability and efficiency.

WEBINAR SEMINAR LEARN ONLINE

Our webinars for **Australian installers** are holding more frequently than seminars. We keep our webinar contents updated and useful. Webinar information will be announced a week in advance on our regional homepage, Facebook and LinkedIn.
